*Dear Andy,*

Toronto Economic Summit

Charles Powell wrote on 31 July about Mr Black's invitation to the Prime Minister to address his company's annual dinner in Toronto at the time of the Economic Summit next year.

The High Commissioner in Ottawa has confirmed that Mr Black's annual dinner attracts a high level of participation, and that the Prime Minister's presence would ensure a full and influential audience and extensive media coverage.

Sir Derek adds that there should be no difficulty about the Prime Minister being able to take an overnight flight back to London after the dinner; he is sure that the timing of the dinner could be adjusted to suit her convenience.

*Yours ever,*
